Hosted by

Science and Technology for Safeguarding Australia

# 4th International Congress on Soldiers' Physical Performance

**O**n behalf of the Planning and Advisory Committees, we are delighted to invite you to experience the 4th International Congress on Soldiers' Physical Performance (ICSPP). Held at the world class Melbourne Convention and Exhibition Centre, this meeting will carry on the rich legacy of information exchange and dialogue among international partners.

The 4th ICSPP will apply a lifecycle theme whereby symposia, poster sessions and featured science sessions by international experts will be organized across key areas including recruitment, training, operational deployment and sustainment. A number of interactive forums, including roundtables and think-tank discussions will be held to assist in the translation of research to practice, and the identification of research priorities across service members' lifecycles.

We hope to see you in Melbourne in 2017 for the 4th ICSPP.
